

Webinar on Avian influenza in human specimens – genomic analyses and experiences from the field

AGENDA

Thursday 20 th March 2025 (14:00 to 16:00 CET)	
14:00 - 14:05	Welcome Dr. E. Broberg Associate Professor, PhD Principal Expert Respiratory Viruses, European Centre for Disease Prevention and Control (ECDC), Stockholm, Sweden
14:05 – 14:20 (15 min)	Pilot study to implement zoonotic influenza surveillance (ZOOIS) Dr. Anna Parys Sciensano, Brussels, Belgium
14:20 – 14:50 (30 min)	Results of the avian influenza EQA 2024 Dr. Frédéric Lemoine Institut Pasteur, Paris, France
14:50 – 15:20 (30 min)	Genomic tools for avian influenza sequence analysis Dr. Alice Fusaro, Dr. Alessandro Sartori, Dr. Edoardo Giussani European Union Reference Laboratory (EURL) for Avian Influenza and Newcastle Disease, Legnaro, Italy
15:20 – 15:35 (15 min)	INSaFLU-TELEVIR: A User-Friendly Bioinformatics Tool to Avian Influenza Genetic Analysis Dr. Vítor Borges National Institute of Health Doutor Ricardo Jorge (INSA), Lisbon, Portugal
15:20- 15:55 (35 min)	General Discussion
15:55 – 16:00	Closing remarks Dr. E. Broberg Associate Professor, PhD Principal Expert Respiratory Viruses, European Centre for Disease Prevention and Control (ECDC), Stockholm, Sweden
